NDIS Extortion Documented

7 May 2026

**SUBJECT: SUKHI TEAR — NDIS SUPPORT COORDINATOR, DIVERSITAS WA**

# The Horse Has Bolted. It Is Too Late.

This document is a legally fortified, evidence-based analysis of why Sukhi Tear — NDIS Support Coordinator at Diversitas WA — underestimated Dr. Richard William McLean, overstepped through arrogance, committed acts that were not merely unethical but illegal under named Australian legislation, and why the evidentiary consequences are now beyond any remediation. Her professional reputation and her record of conduct are in the hands of 492,000+ people, two international bodies, and a blockchain. The video below — an independent analysis of the "quiet observer" phenomenon — was produced without knowledge of this archive. It describes, with striking forensic precision, what Dr. McLean was doing while Sukhi Tear was laughing.

**Named Individual:** Sukhi Tear — NDIS Support Coordinator

**Organisation:** Diversitas WA (Registered NDIS Provider, Western Australia)

**Co-Named Parties:** Philip Glass (Public Guardian), Syed Salman Kazmi, Tony Ridley, Steve Iasonidis

**Police Referral Filed:** 12 February 2026 —

**Archive Status:** 2,304 blockchain-verified documents | ICC submitted | UNHCR received | 492,000+ downloads

**Video Source:** "The Most Dangerous Person in Any Room" — Independent Motivational Analysis — 14 Declarations

**ABN:** 78 833 496 164 — Barran Dodger Legal & Ethical Trust Fund

### **CEASE & DESIST**

#### **Legal Order — REFUSED**

A formal legal cease and desist order was served on Sukhi Tear demanding she immediately stop her targeting conduct against Dr. McLean. She refused to comply. The refusal is documented and archived. It constitutes wilful disregard of a legal instrument — an aggravating factor in every proceeding that follows.

### **MISSING PERSON**

#### **Dr. McLean — Uncontacted**

Dr. Richard William McLean is a missing person. His address is 55B Archbold Rd, Long Jetty NSW. He has had no contact with authorities, welfare services, or support networks despite multiple formal alerts being lodged. He has been rendered invisible by the same system Sukhi Tear operated within. The ICC and UNHCR have received missing person status documentation as part of the formal submissions.

### **NDIS EXTORTION**

#### **Dirty Funds — Targeted Use**

NDIS funding designated for Dr. McLean's support was used as a targeting instrument. Rather than being disbursed for its legislated purpose — his health, safety, and independence — the coordination of those funds was weaponised to achieve his financial exile, isolation, and erasure. The extortion of Commonwealth disability funds to fund a targeting operation is documented across the archive and named in the criminal affidavit.

**Forensic Notice:** This document is a permanent exhibit in the McLean evidence archive, formally submitted to the ICC and UNHCR. All named parties have had access to the complete public archive and have not contested a single exhibit across 2,304 documents. The formal police referral naming Diversitas WA and Sukhi Tear was lodged 12 February 2026. Zero formal rebuttals have been filed. A legal cease and desist order was formally served and refused. Dr. McLean remains a missing person at 55B Archbold Rd, Long Jetty NSW — uncontacted by welfare services despite formal alerts. The independent video analysis cited throughout this document had no knowledge of this archive. This document stands as written.

## INDEPENDENT VIDEO ANALYSIS — THE QUIET OBSERVER PHENOMENON

The video below describes 14 psychological and strategic patterns common to individuals who are systematically underestimated by those who mistake silence for weakness. The creator had no knowledge of Dr. McLean's archive, his case, or Sukhi Tear. Each declaration is mapped below to the documented primary-source evidence of what Dr. McLean was doing while she was laughing.

### Video Title:

"The Most Dangerous Person in Any Room Isn't the Loudest. It's the Quiet Observer Who Already Figured Everyone Out."

## LIVE COURT EVIDENCE — WYONG LOCAL COURT

# Wyong Local Court Has Formally Acknowledged

## Receipt of This Evidence.

### The Court Has It. The Record Is Before the Bench.

On **Thursday 7 May 2026 at 3:41 PM**, a comprehensive evidence package — including the full content of this page, the Sukhi Tear criminal affidavit, and the documented death threat by Troy Kilbourn — was emailed directly to **local-court-wyong@justice.nsw.gov.au** under the subject line: *"Sukhi tear evidence for Wyong court entrapment and death threat by Troy kilbourn."* Wyong Local Court issued an automatic acknowledgement of receipt. That receipt is screenshot below. The evidence is now before the court. It cannot be recalled. It cannot be erased. It is in the judicial record of the proceedings scheduled for **14 May 2026**.

### LEGAL SIGNIFICANCE — COURT RECEIPT

#### The evidence is now a court document.

An automatic receipt from a court registry constitutes formal acknowledgement that the submitted material has entered the court's administrative record. Every document contained in that email — including the full page at [barrandodger.com/sukhi-tear-horse-has-bolted](https://barrandodger.com/sukhi-tear-horse-has-bolted) and the Sukhi Tear criminal affidavit — is now part of the evidentiary universe of the Wyong proceedings. The presiding judicial officer is on notice. The court cannot claim ignorance of this material. The prosecution of Troy Kilbourn proceeds with this full evidentiary context formally received.

## **SIMULTANEOUS DISTRIBUTION — 40+ RECIPIENTS**

### **Court submission sent simultaneously to 40+ institutions.**

The same email submitted to Wyong Local Court was sent simultaneously to: Diversitas WA (all email addresses), NDIS Commission, Australian Human Rights Commission, Privacy Commissioner, Office of the Ombudsman, Crikey, The Guardian, ABC, 60 Minutes, SMH, The Age, News.com.au, Human Rights Watch, Amnesty International, OHCHR, UNHCR, ICC, ProPublica, BBC, CNN, and Michelle Rowland MP. Sukhi Tear was emailed directly at [sukhi@diversitaswa.org.au](mailto:sukhi@diversitaswa.org.au) and [sukhi@diversitaswa.com](mailto:sukhi@diversitaswa.com). The court submission is simultaneously a media release, a regulatory complaint, and an international human rights disclosure. Every named recipient is now on record as having received this material.

⚖️ **Forensic Confirmation:** The Wyong Local Court receipt constitutes official judicial acknowledgement that the evidence naming Sukhi Tear — the criminal affidavit, the cease and desist refusal, the \$50,000 withheld funding, the missing person status, and the NDIS extortion documentation — has been formally received in relation to proceedings scheduled for 14 May 2026. Sukhi Tear was emailed directly and simultaneously. Her employer Diversitas WA was emailed at every listed address. The NDIS Commission, the Ombudsman, the Human Rights Commission, the ICC, and the UNHCR all received the same submission in the same moment. This is not a private complaint. This is a simultaneous, documented, court-acknowledged, globally distributed evidentiary disclosure. The horse bolted the moment that email left the outbox.

# HaDSCO Has Received a Formal Complaint Against Sukhi Tear and Diversitas WA.

## A Case Officer Will Be Assigned. An Assessment Has Begun.

The Health and Disability Services Complaints Office (**HaDSCO**) — the independent statutory body responsible for investigating complaints about health and disability service providers in Western Australia — has formally received two submissions relating to Sukhi Tear and Diversitas WA. First, an automatic acknowledgement was issued by HaDSCO Enquiries at **8:46 AM on 7 May 2026** in response to the same evidence email sent to Wyong Local Court. Second, a formal complaint was submitted directly through HaDSCO's online complaint portal at **hadsco.resolve.hosting**, generating a confirmation of receipt and triggering the formal assessment process. A Case Officer will contact Dr. McLean once the assessment begins.

**HADSCO — ONLINE COMPLAINT CONFIRMED**

hadsco.resolve.hosting · 7 May 2026

9:49

36

hadsco.resolve.hosting

Thank you for submitting a complaint to the Health and Disability Services Complaints Office (HaDSCO). A confirmation email will be sent to you with a copy of the complaint form you submitted.

Your complaint will be assessed to understand how HaDSCO can assist you. A Case Officer will contact you once the assessment begins. Please note this may take up to eight weeks. If you have any questions about your complaint, please contact us on (08) 6551 7600.

 **WHAT HADSCO IS****The independent WA statutory complaints body for health and disability services.**

HaDSCO — the Health and Disability Services Complaints Office — is the independent body established under the *Health and Disability Services (Complaints) Act 1995 (WA)* to receive, assess, and investigate complaints about health and disability service providers in Western Australia. Diversitas WA is a registered WA disability service provider. Sukhi Tear was its employed support coordinator. Both fall squarely within HaDSCO's jurisdiction. A formal complaint has now been lodged, acknowledged, and entered into assessment. The organisation that employed her is now under active regulatory examination by the body legally empowered to investigate it.

## WHAT THE ASSESSMENT MEANS

**A Case Officer will be assigned. The complaint will be assessed. A formal response is required.**

HaDSCO's confirmation states: *"Your complaint will be assessed to understand how HaDSCO can assist you. A Case Officer will contact you once the assessment begins."* This means the documented conduct of Sukhi Tear — the \$50,000 in withheld approved funding, the zero professional referrals, the endangering conditions, the refused cease and desist, the NDIS extortion architecture — is now subject to formal examination by a statutory regulator with investigatory powers under WA law. Diversitas WA must now respond to a statutory body. They cannot ignore this the way they ignored the archive. The process has started. It cannot be stopped.

 **Regulatory Confirmation:** As of 7 May 2026, Sukhi Tear's conduct as an NDIS Support Coordinator at Diversitas WA is simultaneously: before Wyong Local Court (14 May 2026 proceedings acknowledged), before HaDSCO under active complaint assessment (Case Officer to be assigned), before the NDIS Quality and Safeguards Commission (complaints@ndiscommission.gov.au — recipient of the 7 May evidence email), before the ICC (formally submitted, Article 7 examination), before the UNHCR (formally received, Geneva), and in the hands of 492,000+ people via the public archive. There is no regulatory body with jurisdiction over disability service providers in Australia or internationally that does not now have this material. The complaint is not pending. It is simultaneous. It is everywhere. Simultaneously.

▶ **FROM THE VIDEO** 00:00:03–00:00:36

Opening Declaration

*"The most dangerous person in any room isn't the loudest. It's the quiet observer who already figured everyone out. They didn't know the storm was watching in silence. While they were running their mouths, you were running the math. While*

*they were trying to be seen, you were seeing everything."*

There is a particular category of institutional arrogance that is not the product of malice alone. It is the product of calculation — a calculation that the person being harmed will not survive long enough, remain coherent enough, or retain sufficient documentation to matter. That calculation — applied to Dr. Richard William McLean by Sukhi Tear and those operating within the same coordination network — was the central error of her professional life. It was wrong by every measurable dimension. And unlike most errors, this one was made in writing, in a public NDIS funding system, in coordination with named parties now subject to ICC examination, and against a person who kept every record she assumed he would not.

The video cited in this analysis opens with a declaration that describes, without knowledge of this case, precisely what was happening inside the McLean archive while Sukhi Tear was collecting her salary and laughing. While she was running her mouth — to Philip Glass, to Syed Salman Kazmi, to the network — Dr. McLean was running the math. The math is now 2,304 documents, 492,000+ downloads, an ICC submission, and this.

This is not a personal account of hurt feelings. This is a forensic analysis of conduct that violated professional obligations, contravened named Commonwealth legislation, contributed to a documented assassination architecture, and has now been permanently placed in an evidentiary record distributed to 492,000+ people across six continents. The analysis does not require sympathy. It requires only the facts. The facts are below, corroborated at each finding by the independent video declarations that, without knowledge of this archive, describe what was happening in parallel.

*"She underestimated the man she was paid to support. She overestimated her own immunity. Both miscalculations are now in the archive. Both are permanent."*

## **Three Facts That Escalate Everything**

### **I — She Refused a Legal Cease and Desist Order**

A formal legal cease and desist order was served on Sukhi Tear in connection with her targeting conduct against Dr. Richard William McLean. The order demanded, with full legal force, that she immediately stop the conduct being documented in this archive — the withholding of approved NDIS funds, the imposition of endangering conditions, the participation in the coordination network named in the criminal affidavit. She refused. The refusal is documented. It is archived. It is permanent.

The significance of that refusal cannot be overstated in any legal or professional context. A cease and desist order is not merely a letter. It is the formal legal mechanism by which a party is placed on unambiguous notice that their conduct is unlawful, harmful, and the subject of pending legal proceedings. Compliance with such an order is the minimum threshold of professional responsibility. Refusal to comply — when the order has been formally served — is an independent act of aggravated misconduct. It establishes, in the most direct evidentiary terms possible, that the harmful conduct was not accidental, not the product of confusion about professional obligations, and not capable of being attributed to

systemic misunderstanding. It was wilful. She knew. She continued. The record reflects that.

#### LEGAL SIGNIFICANCE OF REFUSAL

In any subsequent civil proceeding, criminal charge, regulatory action, or ICC/UNHCR examination — the documented refusal to comply with a legal cease and desist order converts every preceding act from potentially negligent to demonstrably wilful. It collapses the defence of ignorance. It removes the possibility of mitigation through claimed unawareness. Every harm that continued after the date of that refusal carries elevated legal exposure. Every professional body examining her conduct must treat the refusal as an admission that she knew what she was doing, was formally told to stop, and chose not to. That choice is now permanent in the archive.

#### RELEVANT LAW

**Criminal Code Act 1995 (Cth) s 135.1** — Dishonest conduct producing financial advantage. **Crimes Act 1914 (Cth) s 43** — Wilful obstruction of justice. A party formally served with a legal cease and desist order who refuses to comply and continues the conduct described therein has produced unambiguous evidence of wilfulness in any subsequent proceeding. The refusal is an exhibit. It is in the archive. It is at The Hague.

## ② II — Dr. McLean Is a Missing Person. He Remains Uncontacted.

Dr. Richard William McLean is a missing person. His address is **55B Archbold Rd, Long Jetty NSW**. Despite multiple formal alerts being lodged with relevant authorities — including submissions to the ICC and UNHCR that explicitly document his missing person status — he has had

no contact with welfare services, support networks, or any public institution assigned a duty of care in relation to his wellbeing. He has been rendered invisible by the same system that Sukhi Tear and Diversitas WA operated within.

This is not a missing person situation produced by voluntary withdrawal from public life. Dr. McLean's location is known. His address has been published in formal ICC submissions and appears in a rolling SOS banner across the top of this website, visible to every one of the 492,000+ people who have accessed this archive. What does not exist — despite that knowledge, despite those formal submissions, despite the visible and accessible nature of his location — is any documented welfare check, any support contact, any formal acknowledgement from any Australian government body that a disabled, psychiatrically vulnerable, internationally known whistleblower is living at a known address in NSW with no support, no income, no NDIS services, and under documented threat.

#### **THE MISSING PERSON ARCHITECTURE**

The state of being a missing person — unknown, unsupported, unreachable by the systems nominally responsible for his safety — was not accidental. It is the downstream product of the financial exile architecture documented throughout this page. When NDIS support is weaponised rather than delivered, when approved funding is withheld, when conditions are imposed that force a disabled person away from services, the result is enforced invisibility. Sukhi Tear's role in that architecture — as the named NDIS Support Coordinator who arranged nothing, referred no one, disbursed no approved funding, and stayed silent through documented danger — is a direct contribution to his missing person status. She participated in making him unfindable to the systems that should have found him.

#### INTERNATIONAL STATUS

Missing person status documentation has been formally received by the ICC (The Hague) and UNHCR (Geneva). The SOS banner on barrandodger.com — visible globally — identifies 55B Archbold Rd, Long Jetty NSW as Dr. McLean's address and calls for physical harbouring. The ICC submission explicitly characterises his enforced invisibility as a consequence of coordinated persecution. Sukhi Tear is named in that submission as a participant in the coordination producing that invisibility. Her professional conduct is therefore part of the factual matrix of a formal international human rights complaint.

### ✎ III — She Extorted Dirty NDIS Money to Target Him

The word "extortion" describes the obtaining of something of value through coercion or the abuse of power. What Sukhi Tear participated in was a variant of that framework applied to Commonwealth disability funds: the acceptance of NDIS remuneration — sourced from a funding pool designated for Dr. McLean's support — while using the coordination of that funding as an instrument of coercion, control, and targeting rather than as a mechanism of support. These are not the funds of a functioning coordinator performing her statutory role. These are funds extracted from a disabled person's entitlement and redirected toward the operation of the machinery targeting him.

The funds were dirty because their use was contaminated. NDIS funding is public Commonwealth money appropriated for a specific, legislated purpose: the support, safety, and independent living of a person with disability. When that funding is accepted by a registered provider who

simultaneously withholds approved participant disbursements, arranges zero professional supports, imposes endangering conditions, and participates in a coordination network seeking the participant's erasure — the funds extracted through that arrangement are the proceeds of a fraudulent and coercive scheme. They are dirty. The NDIS system was used as the laundering mechanism: the appearance of legitimate support coordination was maintained while the actual function of the arrangement was the management and targeting of the client.

#### **THE TARGETING ARCHITECTURE — WHAT THE MONEY FUNDED**

- ⊗ Maintaining the appearance of registered support to prevent Dr. McLean accessing alternative providers
- ⊗ Coordinating with Philip Glass (Public Guardian) and Syed Salman Kazmi to manage the financial exile architecture
- ⊗ Imposing conditions on withheld approved funding that directed Dr. McLean toward a documented assassination network
- ⊗ Generating the institutional paper trail that created the fiction of active support while producing none
- ⊗ Sustaining a registered provider relationship that blocked Dr. McLean from independently engaging compliant supports

#### STATUTORY CHARACTERISATION

**Criminal Code Act 1995 (Cth) s 134.1** — obtaining a financial advantage from a Commonwealth entity by deception. **NDIS Act 2013 (Cth) s 26** — registered provider obligations. The criminal affidavit — ENTRAPMENT FOR ERASURE — names Sukhi Tear explicitly in the fraudulent NDIS funding scheme. The money she extracted from the Commonwealth NDIS funding pool while delivering no services and withholding \$50,000 in approved participant funds is characterised as the proceeds of a deception. It is extortion of public disability funds applied to a targeting operation. That characterisation stands until it is formally contested. It has not been formally contested. It has not been contested at all.

## The Arrogance of Underestimation — What She Calculated and Why It Was Catastrophically Wrong

▶ FROM THE VIDEO 00:01:15–00:01:50

Declaration 1 — Intelligence Etched in Blood

*"Chosen one. That's you. The ones who tried to clown you. They're panicking now because they just realise you're three steps ahead and not even sweating. And the most ironic part, their words are now digging their own reputations into the dirt."*

To underestimate someone is a human error. To underestimate someone while simultaneously drawing their disability support salary, withholding their approved funding, and coordinating with a network seeking their death — and to do all of that while laughing — is something different. It is a forensic event. It produces a record.

What Sukhi Tear calculated — and the archive supports this inference

through documented pattern rather than speculation — is that Dr. Richard William McLean was a manageable liability. A disabled person in crisis. A man whose NDIS file was an administrative inconvenience, whose complaints were the predictable noise of someone who did not understand how systems worked, and whose capacity to document, survive, and reach the international community was negligible. He was a case number. He was not a threat.

▶ **FROM THE VIDEO** 00:07:25–00:08:05

Declaration 1 — They Can't Teach What's Etched in Your Blood

*"They can't teach what's already etched in your blood. It terrifies them that you didn't need their books, their gurus, or their systems to surpass them. You just knew. And that makes you dangerous. What scares them most isn't what you say, it's how you say it. You speak like someone who already knew the truth before they ever tried to lie."*

This calculation was made about a Victoria University PhD holder. An award-winning human rights advocate. An accredited journalist. A published author. A man who had spent decades lodging formal submissions to courts, government agencies, and international bodies — not as a troubled person seeking attention, but as a meticulous archivist of institutional misconduct. His intelligence was not learned from the NDIS system. It was not built in Diversitas WA's offices. It was assembled across 35 years of surviving, observing, and recording. It preceded Sukhi Tear's involvement in his life by decades. She did not know she was dealing with someone who had already figured out every move institutions make against inconvenient witnesses.

▶ **FROM THE VIDEO** 00:09:45–00:10:21

Declaration 1 — Cataloguing Every Move

*"How many times did they confuse your quiet with ignorance, not knowing you were cataloguing their every move like a scientist studying a subject? The joke's on them now because the same people who once dismissed you as too weird are whispering about your name like it's a riddle they can't solve."*

While Sukhi Tear administered the NDIS funding mechanism as a weapon of financial control, Dr. McLean was cataloguing. Every referral that never came. Every professional support that was never arranged. Every condition that was imposed on withheld funding. Every document that was generated by Diversitas WA and the institutional network surrounding it. The archive she helped create — through her absence of genuine support activity — is now at The Hague.

▶ **FROM THE VIDEO** 00:25:08–00:26:29

Declaration 6 — You Let Fools Flex First

*"You've mastered one of the most underestimated strategies on this planet. Patience with a purpose. You let them perform. You let them flex their shallow intellect, spin their rehearsed phrases, and dominate conversations with empty confidence. Meanwhile, you sit still, taking mental notes with the precision of a sniper. They thought you were slow, passive, out of your depth. But what they didn't realise is you were staging their own exposure."*

#### **EVIDENCE OF UNDERESTIMATION**

Master Evidence Register — Professional Record of Dr. McLean

Dr. McLean holds a PhD from Victoria University (2020). He is a published author, an accredited journalist, an award-winning human rights advocate, and a documented LGBTQ+ disability rights campaigner. His archive contains 2,304 primary source documents. His evidence package has been formally received by the ICC and UNHCR. As of 7 May 2026, it has been downloaded 492,000+ times across six continents. The person Sukhi Tear assessed as a manageable liability is

the author of the most thoroughly documented whistleblower evidence package in Australian legal history. He was not behind. He was observing from a higher level and building the record that would outlast every institution that harmed him.

#### VIDEO CORROBORATED

Arrogance, in a professional context, is not merely an attitude. It is a pattern of decision-making that treats accountability as a problem that applies to other people. Every decision Sukhi Tear made — to withhold approved funding, to impose conditions endangering the client, to remain silent about a documented assassination attempt, to continue drawing her salary — was made in the belief that accountability would not arrive. That belief was arrogance. The arrival of accountability is this document and the 2,304 that preceded it. The video's declaration is precise: their words are now digging their own reputations into the dirt. The words Sukhi Tear generated — the conditions she imposed in writing, the salary she collected while funding sat withheld — are the archive's exhibits.

## II The Fraud — \$50,000 in Approved Public Funds Withheld While Salary Was Collected

▶ FROM THE VIDEO 00:39:35–00:40:15

Declaration 12 — Intelligence Without Morals

*"Intelligence without integrity isn't brilliance. It's just a better weapon for cowards. You didn't just outsmart the manipulators. You exposed them — not by playing their game, but by showing there's another way to win: with truth, empathy, and unwavering integrity. Now those who once wore intelligence like a crown are choking on the weight of their own performance."*

The word "fraud" has a precise legal meaning under Australian Commonwealth law. It is not a rhetorical escalation. It is a statutory category describing conduct that involves dishonesty, a deprivation, and an advantage obtained improperly. What Sukhi Tear is documented to have done — accepting an ongoing salary sourced from NDIS public funds designated for Dr. McLean's support while simultaneously withholding \$50,000 in separately-approved NDIS funding from the person those funds were designed to serve — fits that statutory category with precision.

The video's twelfth declaration is a forensic commentary on exactly this category of conduct. Sukhi Tear operated with a form of institutional intelligence — she understood the NDIS funding system, the power structures within it, the levers available to a registered coordinator. That intelligence was deployed not to lift her client, but to control him. Not to disburse what was approved, but to weaponise what was withheld. Intelligence without integrity, in the NDIS context, is not just a moral failure. It is a statutory fraud.

## CRIMINAL CODE ACT 1995 (CTH)

### Section 134.1 — Obtaining a financial advantage by deception

*A person is guilty of an offence if: (a) the person, by a deception, dishonestly obtains a financial advantage from another person; and (b) the other person is a Commonwealth entity.*

#### APPLICATION TO THIS CASE

Sukhi Tear obtained ongoing remuneration from NDIS public funds — a Commonwealth financial instrument — while withholding \$50,000 in approved funds from the person those funds were designated to serve. The obtaining of that salary while delivering no documented support services, arranging no referrals, and withholding approved funds constitutes obtaining a financial advantage from a Commonwealth entity (the NDIA) by conduct inconsistent with the representations on which that payment was made.

## NATIONAL DISABILITY INSURANCE SCHEME ACT 2013 (CTH)

### Section 26 — Registered Provider Obligations

*A registered NDIS provider must comply with the NDIS Code of Conduct, NDIS Practice Standards, and all conditions of registration. A registered provider must deliver supports and services that are fit for purpose and meet the reasonable needs of participants.*

#### APPLICATION TO THIS CASE

Diversitas WA, as a registered NDIS provider, had a statutory obligation to deliver the support services for which it was funded. Sukhi Tear, operating as its registered coordinator, accepted funding on the representation that those services would be delivered. Zero referrals were made. Zero professional supports were arranged. \$50,000 in approved funding was withheld. This constitutes a direct breach of Section 26 obligations and a basis for deregistration proceedings.

## NDIS QUALITY AND SAFEGUARDS COMMISSION — NDIS CODE OF CONDUCT (2018)

### Clauses 4(c) and 4(d)

*Registered providers and their workers must: act with integrity, honesty and transparency; and promptly take steps to raise and act on concerns about matters that might have an impact on the quality and safety of supports and services provided to people with disability.*

#### APPLICATION TO THIS CASE

The withholding of \$50,000 in approved NDIS funding while continuing to draw salary from the same funding pool is a direct violation of the honesty and transparency requirement. The failure to act on documented threats to the client's safety — including a financially motivated death threat and a documented assassination network — violates the mandatory duty to raise and act on safety concerns.

▶ **FROM THE VIDEO** 00:40:55–00:41:29

Declaration 12 — How Someone Uses Their Mind Reveals Who They Really Are

*"One is playing chess to control people. The other is living in truth that doesn't need a strategy. You made people question everything they were taught to admire. You didn't dominate people. You made them reflect. And now they're realising intellect without values isn't strength. It's just manipulation dressed in a suit."*

#### PRIMARY EVIDENCE — \$50,000

Formal Criminal Affidavit | Master Evidence Register #724–

#### WITHHELD

725

The archive contains the documented record of approximately \$50,000 in approved NDIS funding withheld from Dr. McLean across the period of Sukhi Tear's engagement at Diversitas WA. This funding had been formally approved by the NDIA for specific support purposes. It was not disbursed. Simultaneously, Diversitas WA continued to receive administrative and coordination fees from the NDIS funding pool. The juxtaposition — approved participant funding withheld, provider salary collected — is the documented definition of NDIS fraud. It is

named as such in the Formal Criminal Affidavit Against Sukhi Tear, Syed Salman Kazmi, and Philip Glass. The manipulation was dressed in an NDIS coordinator's role. The archive stripped the suit off.

**VIDEO CORROBORATED**

*"She drew the salary. She withheld the support. She continued the arrangement. Every week she was paid was a week the \$50,000 sat untouched. Intelligence without integrity. Manipulation dressed in a role. That is not support coordination. That is fraud."*

**STATEMENT OF SIGNIFICANCE · VERIFIED LIVE**

ABN 78 833 496 164

**TOTAL VERIFIED DOWNLOADS · MIRRORED FROM LIVE DATABASE**

# 607,689

6 CONTINENTS · ZERO MARKETING · ZERO PR · ZERO INSTITUTIONAL SUPPORT

**This is the most documented whistleblower archive in Australian history**, and one of the most documented in the world. **788** freely distributed PDFs. **891 Bitcoin blockchain timestamps**. **2,304 SHA-256 sealed exhibits**. **73 independent forensic AI analyses** — 603 propositions assessed across 55 reviews, *zero contradictions*. **35 years** of systemic persecution by **35+ Australian government agencies**. Built by one disabled LGBTQ+ PhD whistleblower with a broken phone — no marketing budget, no legal representation, no political backing, no institutional support, no money.

☞ *The archive operates on the principle of **resonance, not proximity**. A signal travels further than a fist. A blockchain hash travels further than any government denial. The Anthropocene witness does not need to be near power to dismantle it — only to be heard at the frequency of its lie.*

#### **BIBLICAL PROPHECY**

Matthew 10:26 — "Nothing covered shall not be revealed." The technical fulfilment: 891 immutable Bitcoin seals.

#### **ANTHROPOCENE WITNESS**

A primary-source artefact of the precise inflection point where human institutions, AI, and blockchain converge into one record.

#### AI SINGULARITY

55 AI reviews · 603 propositions · zero contradictions. The singularity already arrived through distributed cryptographic verification.

## Economic Justice Engine

[economicjusticeengine.com](https://economicjusticeengine.com) 

### STATEMENT OF SIGNIFICANCE

The Economic Justice Engine is the world's first publicly accessible, blockchain-authenticated, AI-assisted forensic economic valuation of state-perpetrated institutional persecution. It applies every known actuarial, legal, and human rights compensation framework — including ICC Article 7 (Crimes Against Humanity), UNHRC General Comment 36, and Australian common law precedent — to 2,304 primary source documents spanning 35 years of documented government persecution of Dr. Richard William McLean (Barran Dodger, ABN 78 833 496 164).

This instrument was submitted to and registered with the UN Human Rights Committee, incorporated into the ICC Article 7 filing, and anchored to the Bitcoin blockchain — making its calculations mathematically permanent and legally irrefutable.
