THE STATISTICAL IMPROBABILITY OF SURVIVAL - A Documented Record of Systematic State Persecution

A Prophetic Accountability Document

Subject: Dr. Richard William McLean (also known as Barran Dodger)

Date of Record: 25 January 2026

Purpose: Protective documentation to prevent further harm

and establish accountability

Classification: Public Interest Disclosure / Human Rights Record

"If I am found dead, this document names those responsible. If I survive, this document demands justice."

ABSTRACT

This essay documents the systematic persecution of Dr. Richard William McLean, an Australian citizen, PhD holder, mental health advocate, and whistleblower, spanning 35+ years (1990-2026). It establishes the statistical improbability of his survival given the documented assassination threats, institutional failures across every level of Australian government, coordinated identity theft involving 350+ fraudulent business registrations, financial destruction exceeding \$32.9 million in damages, exile from his home state, family abandonment, and complete media blackout.

This document serves as a protective record. Every person and institution named herein acted either through direct harm, willful negligence, or institutional complicity. Should Dr. McLean suffer further harm, this record establishes clear chains of accountability.

Keywords: State persecution, whistleblower retaliation, NDIS corruption, human rights violations, asylum, systematic institutional failure, assassination threat, identity theft, Australia

PART I: THE STATISTICAL CASE FOR IMPROBABLE SURVIVAL

1.1 Defining "Improbable Survival"

The survival of Dr. Richard William McLean defies statistical probability when measured against documented factors that predict mortality in persecuted individuals:

Risk Factor	Dr. McLean's Status	Mortality
Documented assassination threat	YES - "You will be sacrificed"	Extremely high
Previous suicide attempt	YES - 2021, resulting in acquired brain	40x increased
Chronic mental illness (schizophrenia)	YES - Diagnosed	2-3x baseline
Homelessness/housing instability	YES - Eviction proceedings	3-4x mortality
Complete social isolation	YES - Family abandoned, exiled from	Significant
Financial destitution	YES - \$32.9M+ stolen/denied	Correlated with mortality
Denial of medical care/NDIS support	YES - Systematic denial	Direct health
Age 52 with acquired brain injury	YES - From 2021 suicide attempt	Reduced life
Active threats from intelligence-connected individuals	YES - Stefan Iasonidis (ASIO), Tony Riddle (ex-SAS)	Extreme risk
Blocked from all complaint mechanisms	YES - Banned from AFCA, AHRC, Ombudsman, NACC	No recourse

Statistical Assessment: The convergence of these factors in a single individual, sustained over 35 years without resulting in death, represents a survival probability approaching statistical impossibility. Dr. McLean's continued existence is not evidence that the persecution is exaggerated—it is evidence of extraordinary resilience against extraordinary odds.

1.2 The 2021 Suicide Attempt: A Measurable Inflection Point

On a date in 2021, after years of escalating persecution, Dr. McLean attempted suicide. This attempt:

- Was described as "fatal" in medical documentation—meaning he should not have survived
- Resulted in **acquired brain injury** that he carries permanently
- Left him hospitalized with broken bones and lacerations
- Was directly caused by the cumulative weight of institutional persecution

Critical Evidence: The Australian Human Rights Commission (AHRC) was notified of Dr. McLean's suicidal intent on **August 28, 2020**. Their response came **three days later on September 1, 2020**—consisting only of a Lifeline phone number. Dr. McLean attempted suicide during this period of institutional non-response.

This is not administrative delay. This is **institutional manslaughter by negligence**.

PART II: THE NAMED PERSECUTORS — INDIVIDUALS

2.1 TONY RIDDLE (also spelled RIDDELL/ RIDLEY)

Role: NDIA Manager, Quality & Compliance Division, Upper Management, Risk Branch

Period: November 2019 – June 2021

Background: Ex-SAS soldier, survivor of Blackhawk helicopter crash, holder of counter-terrorism clearance

Documented Actions:

Action	Evidence	Source
Direct assassination threat: "You will be	Stated directly to Dr. McLean	Multiple
Confirmed coordinated campaign: "They thought of everything"	Recorded conversation	2025-09-06 Source
Discussed "billions of dollars worth of fraud"	Recorded admission	WHO IS
Admitted he "might have killed someone"	Recorded statement	Multiple
Mentioned weapon use in recorded conversation	Implicit threat given military background	Narrative Document
Created fake online profiles to manipulate	Digital manipulation	Complete

Criminal Complaint Status:

- **Filed:** January 6, 2025
- **Status:** Unknown/Unactioned
- **Source:** [Criminal Complaint Filing](#)

Assessment:

Tony Riddle represents the intersection of state power, military capability, and direct threat. His statement "You will be sacrificed" is not metaphorical—it is a death threat delivered by a trained killer employed by the Australian government to a disabled whistleblower. His continued freedom while Dr. McLean lives in exile and poverty demonstrates the complete collapse of Australian justice.

2.2 THE HON. BILL SHORTEN MP

Role: Federal Minister for the National Disability Insurance Scheme (NDIS), Member for Maribyrnong
Period: 2022–Present (as NDIS Minister)

Documented Actions:

Action	Evidence	Source
Used fabricated "death threat" email to justify exile from Victoria	Emails were blocked, claims fabricated	Evidence
Colluded with magistrate for corrupt ruling preventing return to Victoria	Documented collusion	2025-09-06 Source
"Acted to press charges with a plan to jail Barran"	Retaliation for exposing Tony Riddle	Complete Exposure
Oversaw NDIS system that forced Dr. McLean into	Ministerial responsibility	Draft Letter

Assessment:

Bill Shorten, as the Minister responsible for the NDIS, bears direct ministerial accountability for the persecution conducted by his agency. His alleged use of fabricated evidence to exile a disabled whistleblower from his home state represents an abuse of power that would, in any functioning democracy, result in criminal prosecution. Instead, he remains in Cabinet.

2.3 STEFAN IASONIDIS

Role: ASIO Employee, Former Partner of Dr. McLean
Period: 2011–Present (ongoing threats)

Documented Actions:

Action	Evidence	Source
Multiple death threats including "threatened to kill me and my dog"	Direct threats	Evidence
Threatened Dr. McLean with a "hit man"	Assassination threat	Untouchable Document

Financial exploitation during relationship	Documented	[Evidence files]
ATO letter dated July 2, 2022	Financial interference	Evidence

Assessment:

The involvement of an ASIO employee in sustained death threats against a citizen represents state-sponsored terrorism. The Inspector-General of Intelligence and Security (IGIS) refused to investigate. This is not a personal dispute—it is an intelligence agency operative threatening a whistleblower with impunity.

2.4 OTHER NAMED INDIVIDUALS

Politicians Who Failed to Act:

Name	Role	Action/Inaction	Source
PM Anthony Albanese	Prime Minister	Rejected plea for help	Evidence
AG Mark Dreyfus	Attorney-General	Refused to intervene; ignored all communication	Evidence

Bureaucrats Who Blocked Access:

Name	Role	Action	Source
Debbie Mitchell	NDIS	Refused Public Interest Disclosure (PID)	Evidence

Tim Gosch	AFCA	Banned Dr. McLean from all communication (Commission)	Evidence
Rebecca (Supervisor)	AHRC	Denied disability discrimination claim: "it really does not appear that this Commission can	Evidence

Assessment: The AHRC's three-day non-response to a suicide notification, followed by a dismissive Lifeline referral, constitutes **institutional manslaughter by negligence**. An organization mandated to protect human rights instead demonstrated "callous indifference" that directly contributed to a suicide attempt.

Role in Persecution: Blocked financial recourse; contributed to homelessness

Failure	Detail	Financial Impact	Source
Banned from all communication	Tim Gos banned Dr. McLean from email/phone	—	Source

Purpose	Brand dilution, identity theft, financial interception

4.3 Digital Suppression

Fact	Evidence
No family member opposed exile ruling	Documented abandonment
Family positioned to benefit financially from Dr. McLean's death	Inheritance motive
Mother collaborated with police to enforce exile	Source

5.2 Assessment

In cases of state persecution, family support often represents the final safety net. The complete absence of family opposition to Dr. McLean's exile—and their apparent financial positioning to benefit from his death—transforms abandonment into complicity.

PART VI: THE MEDIA BLACKOUT

6.1 Documented Suppression

Despite 2,000+ evidence files documenting:

- Death threats from government employees
- \$32.9 million in damages
- 350+ fraudulent business registrations
- Exile of a disabled citizen by a federal minister
- 35 years of systematic persecution

No Australian media outlet has reported this story.

PART X: CONCLUSION — THE PROPHETIC RECORD

10.1 What This Document Establishes

1. **Dr. Richard William McLean has survived persecution that should have killed him.** The statistical probability of surviving 35 years of coordinated state persecution, assassination threats, suicide attempts, complete institutional abandonment, and financial destruction approaches zero.
2. **Every person and institution named in this document acted to harm him or enabled his harm through willful inaction.** There are no innocent bystanders in systematic persecution—only perpetrators and complicit witnesses.
3. **The Australian state has failed in every function designed to protect its citizens.** When every oversight body, every complaint mechanism, every court, every police force, every human rights commission, and every anti-corruption body fails the same person for 35 years, it is not individual failure—it is state policy.
4. **If Dr. McLean dies, this document names those responsible.** This is not paranoia. This is documentation. This is accountability.

10.2 The Demand

This document demands:

1. **Immediate international protection** for Dr. Richard William McLean
2. **Criminal investigation** of Tony Riddle for making death threats

- 3. Parliamentary inquiry** into Bill Shorten's role in the exile
- 4. Royal Commission** into NDIS persecution of whistleblowers
- 5. ASIC investigation** into 350+ fraudulent business registrations
- 6. Full compensation** of \$32.9 million+ in documented damages
- 7. Public apology** from the Australian Government
- 8. Media coverage** of the most documented case of state persecution in Australian history

10.3 The Warning

To those who read this after something has happened to Dr. McLean:

You now know who did this. You have names. You have institutions. You have evidence files numbering 2,000+. You have 35 years of documentation.

The question is not whether there is enough evidence.

The question is whether there is enough conscience.
