THE RECORD IS PUBLIC — EXAMINE THE EVIDENCE

For more than 35 years, Dr Richard William McLean — Barran Dodger — has preserved a documentary record concerning alleged institutional corruption, detriment, surveillance, financial abuse, healthcare treatment and attempts to silence his disclosures.

I describe myself as an unprotected whistleblower, and allege that government and other institutions responded to my disclosures by doubling down rather than addressing the evidence. I describe being in exile in NSW from

Victoria, impoverished and subject to what I describe as continuing covert audio harassment and surveillance.

I also state that I have been detained in hospital under mental-health legislation 16 times, which I dispute was properly attributable to mental illness, and that I have faced what I describe as character assassination and institutional exclusion. I state that I have not been charged or convicted over the allegations made against me, despite asking for them to be tested through lawful process.

FIVE KEY PIECES OF EVIDENCE

Tony Ridley: I allege that former NDIA fraud investigator Tony Ridley, whom I identify as a former SAS soldier with a PhD concerning counter-terrorism surveillance, drug-baited me, engaged in sexual activity with me and was involved in subsequent surveillance.

NACC: My complaint concerning an alleged rape involving my former fiancé Steve Iasonidis, whom I identify as having worked for ASIO, and my allegation that the matter has not been properly investigated.

IGIS: My complaint concerning surveillance and my allegation that IGIS investigated me without investigating police or Iasonidis as requested.

Surveillance footage: Footage that I say corroborates surveillance dating back to at least 2002 and forms part of the evidence underlying my current claims of surveillance and covert audio/V2K harassment.

Engagement: I state that I was engaged to Steve Iasonidis. Not one person, in my experience, will acknowledge that the engagement existed.

Ben NDIS 'Help' — evidence:

Ben from [dswdisability.com.au](mailto:ben@dswdisability.com.au), without knowing Barran's past, confirmed that a woman had been paid to fabricate a report he wrote about and spoke of publicly.

Federal Police, whom Barran had asked Ben to send the evidence to concerning an assassination attempt, subsequently confirmed to Ben, months after Barran had spoken with him, that Federal Police had told him about the bribe. They also confirmed that the event was regrettable but consensual, and Ben was then forced to sign an agency-grade NDA preventing him from ever mentioning it again.

Here is the entire text-message record covering the period during which Ben and Barran communicated.

Richard, who changed his name to Barran Dodger after a fatal injury from which he was revived from death, and whose experience was subsequently whitewashed, had already written publicly about the regret in his autobiography, *Recovered, Not Cured*, published by Allen & Unwin in 2012.

He was subsequently humiliated by the Herald Sun and fired from The Age as a result.

WHO IS NAMED IN THE ARCHIVE?

I instructed an impartial AI to examine the documentary archive and identify the agencies, organisations, institutions and professional groups connected in the record to alleged detriment — without asking it to simply accept my conclusions.

WHY THE ARCHIVES MATTER

The purpose is simple: preserve the record so other people can examine it. The AI Finding Aid, GitHub archive and preservation archive provide multiple access points to the underlying documents, allowing the chronology, institutional responses, testimony, allegations and provenance to be independently examined.

I am not asking you simply to believe me. I am asking you to examine the evidence.
