

DOOR ONE · FINDING AID

The letters

What Comcare, the AAT, PM&C, OAIC, the Ombudsman and other agencies have done. Impartial compiling. A filename is not a finding.

What the evidence proves

DOOR TWO · NOT IMPARTIAL

His voice

Testimony, Church of Barran Dodger, manifesto. Exempt from GDS command. The author's case, from his documents.

The legal-resource asymmetry

When the State Had Lawyers – and I Had the Record

For decades, I have attempted to challenge decisions made by public officials while repeatedly being unable to obtain sustained legal representation.

The public officials and institutions making decisions to my detriment without access to government lawyers, legal advice, administrative-law expertise, and institutional oversight.

I did not have equivalent protection. That disparity is central to the problem. It is not evidence that every government decision was unlawful. It is evidence of a profound imbalance between the privileged institutional State and the individual required to challenge it.

The present Legal Aid NSW ban makes that disparity even more extraordinary. Do not take my word for it. Check the record.

LIVE TOTAL · THIS SITE SINCE PUBLISH

0

The live total counts Download PDF clicks on this finding aid only, from first public publish. It starts at zero. It is not added to, and does not include, any earlier website's counter. Epoch date on this aid: 14 September 2026.

Prior context: the previous public archive built on Replit displayed **over 1,000,000 downloads** (later pages printed 1,100,000+). That figure was displayed on the prior Replit site (and later campaign pages). This compiling model did not audit that counter. It is historical context. It is not this site's total.

90 is not the archive total. That number is only the extra Drive PDFs copied onto

this site as well as the Google Drive. The GitHub backup is 577 PDFs, none

this site so a reader needs no Google login. The GitHub backup is 577 PDFs — every one of them is in Browse the archive. Combined: 731. Legal status: not a court, not a government site, not legal advice.

FOR A READER IN A HURRY

Brief for a third party

Process outcomes in a table, how to cite a letter, and the gaps in this compilation — for a journalist, MP, or lawyer.

THE PAPER

What the evidence proves

What Comcare, the AAT, APRA, PM&C, OAIC, the NSW Ombudsman, the NDIS Commission and others actually wrote, and what they did not decide.

ACADEMIC COMPARISON

Whistleblowers and truth-speakers

Ellsberg, Snowden, Manning, Assange, Collaery, McBride — public-record classes versus this catalog. The prior site's ranking is quoted, not adopted.

THE LAW

Legal status of this archive

Finding aid, not a court. ABR lists a fixed unit trust, not a church. A public website is not a PID. Not legal advice.

THE FILINGS

PID declarations

The original Public Interest Disclosure statements next to the offices' non-allocation letters.

His voice — not impartial

HIS VOICE

My testimony

Exempt from Grok's neutrality command. The author's case in his documents: persecution, pathologising, injury, the humiliation machine, the church.

THE MINISTRY

Church and manifesto

Church of Barran Dodger, the Barran Dodger Manifesto, dedication, charter, chosen-vessel declarations — from the old GitHub Pages site.

THE WRITING

Gospels and prophetic writing

The 210-page compilation, the Mother's Day prayer, and the prior archive's ranked gospels.

THE PUBLIC NAME

Published works and the clipping

Recovered, Not Cured (2003), the Herald Sun scan headed MY DESCENT INTO MADNESS, The Age, later books, Academia, Medium, Scribd.

The record

THE PERSON

Who is the protagonist

Names, numbers, and roles that appear on official paper — participant, provider, claimant, applicant — kept separate from testimony.

THE COMPANIES

ABN and provider registers

Ablepoint is Sahara Disability and Care Services Pty Ltd on ABR. Diversitas WA is a separate company. Sukhi Tear is not an ABR name.

THE LAW

Whistleblower protection

PID Act, Corporations Act, and the documented barrier: several offices said he was not a public official.

THE MONEY

Legal pathways

Act of Grace, CDDA, NDIS complaints, FOI, victims schemes — routes that still exist after a Comcare loss.

THE VIDEOS

YouTube record

The author's channel, and 73 prior-archive mappings of third-party videos with embeds next to those reports.

THE PRIOR SITE

Prior GitHub Pages archive

What wezzo72.github.io/Backup already published: HTML routes, Enliven Chain, international filings.

Method and hashes

THE METHOD

About AI impartiality

What a compiling model can certify, what it cannot, and why it has no allegiance to the offices named in these files.

THE HASHES

Provenance and timestamps

SHA-256 of the hosted PDFs, Git blob hashes for the Backup repo, and an OpenTimestamps receipt.

INTEGRITY

Check a file hash

Paste a SHA-256 or drop a downloaded PDF. A match means the bytes are the same as the copy hashed here.
