The Hour Every Support Network Simultaneously Withdrew

Six screenshots across 11 August 2026 document the complete collapse of every support structure surrounding Dr. Richard William McLean. In the morning: NDIS worker deflected on financial grounds when no money was asked for; the church pastor's notifications were silenced; the archive hosting bill consumed his entire weekly income. At 5:08 PM: Sam received the Doctrine of Complicity by Deliberate Omission and responded by redirecting to Lifeline — characterising a blockchain-sealed public legal record as a symptom of stress. None of it has been rebutted.

These five screenshots document a single 40-minute window. But the window did not open in isolation. Each event on 11 August 2026 is the documented downstream consequence of prior events — each of which is itself a primary source exhibit in this archive.

Sam did not deflect because he lacked funds. He deflected because his prior conduct — documented across Exhibits 070826-F, G, and H — had already established a pattern of professional failure. He attended church with Dr. McLean, shared communion, was rostered to

escort him to services, and then Cass (AblePoint supervisor) issued an instruction terminating that engagement outside NDIS hours (EXHIBIT 070826-G). The faith connection was created by the NDIS structure, then cut by it, then weaponised as emotional vulnerability. Sam's 'no funds' message on 11 August is not an isolated response. It is the fifth documented instance of the same pattern.

The \$254 hosting bill is not a technical cost. It is the financial endpoint of a campaign documented to have cost between \$1.67 billion and \$4.84 billion AUD in taxpayer resources (Taxpayer Cost Estimation forensic report, blockchain-sealed). Minister McAllister's substitution of approximately \$1 million in workers' compensation — awarded by Federal Court determination — with a lower-value NDIS plan, followed by a ban on contact, set the financial floor below which a \$254 hosting bill is impossible to meet. Legal Aid NSW's ban during active Guardianship proceedings removed the only avenue for legal challenge. The NSW Trustee's control of Dr. McLean's funds — and their 3-day blackout during the Crystal vet crisis (EXHIBIT 070826-I/J/K) — completed the financial trap. The hosting bill on 11 August is what that trap looks like.

Crystal's role in this moment is not incidental. Ben (NDIS provider, DSW Disability) confirmed to Dr. McLean that the assassination attempt was described by police as a 'close call,' that Bill Shorten was responsible for political exile, and that an NDA was signed under duress (documented at /ben-disclosure). The deliberate withholding of veterinary care for Crystal — across a six-day coordinated delay documented in Exhibits 070826-I through K — is the mechanism by which emotional distress was manufactured to be used against Dr. McLean as evidence of instability. 'Crystal is the only friend I have' is not a rhetorical statement. It is a primary source psychological record from a person who has survived a documented assassination attempt, a 35-year coordinated institutional persecution, and the engineered withdrawal of every human support structure available to him.

The Doctrine of Complicity by Deliberate Omission (published the same day at /doctrine-of-complicity-by-deliberate-omission) names the legal principle each withdrawal activates: Sam's deflection activates The Professional Mandate Doctrine; Pastor James's silenced notifications activates The Fear of Reprisal Doctrine; the Legal Aid ban activates The Legal Aid Doctrine; the McAllister \$1M substitution activates The Conspiracy to Murder Doctrine; the 40-minute simultaneous collapse of every network activates The 100 Cops Doctrine. Not one of the named parties has filed a defamation action. Not one has issued a factual rebuttal. Zero. Across 1,379,333+ downloads in six continents. The silence is itself the evidence.
