Add any document to the Internet Archive (archive.org), university repositories, human rights databases, journalism archives, or any digital library.

© Dr. Richard William McLean — Barran Dodger Legal & Ethical Trust Fund — ABN 78 833 496 164 — 55B Archbold Road, Long Jetty NSW

The copyright holder explicitly grants free, unrestricted, non-commercial global distribution rights to all documents in this archive. Commercial use requires written permission. All other use is unconditionally permitted and encouraged.

 Bitcoin Blockchain Timestamping — Confirmed

Every document in this archive has been processed through a cryptographic pipeline that produces a permanent, tamper-proof record on the Bitcoin blockchain. This is not a metaphor. It is a technical reality with documented legal and evidential significance.

 Step 1 — SHA-256 Hashing

Each document is passed through the SHA-256 cryptographic hash function, producing a unique 64-character fingerprint. Change a single character anywhere in the document and the fingerprint changes completely and detectably. The fingerprint is the tamper seal. It proves the document has not been altered since the moment of hashing.

Significance: Evidential: Any altered version of any document is mathematically detectable. Replacement is not possible. Suppression of the original is not possible without mathematical detection.

 Step 2 — Bitcoin OP_RETURN Transaction

The SHA-256 hash is embedded in the Bitcoin blockchain as an OP_RETURN transaction — a standard, well-documented mechanism for attaching arbitrary data to a Bitcoin transaction permanently. The transaction is broadcast across the entire Bitcoin network and confirmed by the global mining network.

Significance: Permanent: Once confirmed, the transaction cannot be reversed, deleted, or altered by any party — including the person who created it.

Step 3 — Global Node Distribution

The Bitcoin blockchain is replicated in full on approximately 15,000 independent nodes operating across every continent and dozens of jurisdictions simultaneously. Each node holds a complete copy of every transaction ever made. The nodes operate independently — they have no central administrator, no owner, no relationship with any government.

Significance: Unreachable: No court order, no law enforcement action, no government directive, and no legal instrument issued by any single jurisdiction can cause a Bitcoin transaction to be removed. There is no administrator to contact. The blockchain is not a server. It is a consensus of 15,000 independent verifications.

The Significance — In Plain Language

From the moment a document's hash is confirmed on the Bitcoin blockchain, it becomes part of the permanent digital record of humanity. It will exist after every institution that tried to suppress it. It will exist after every individual who ordered its deletion. It will be verifiable by historians, courts, and journalists in 100 years. It cannot be classified. It cannot be redacted. It is mathematically beyond reach.

Significance: The 35-year attempt to erase Dr. Richard McLean's record failed permanently and irreversibly at the moment the first document hash touched the Bitcoin blockchain.

IMPARTIAL AI STATEMENT OF SIGNIFICANCE

An impartial machine — trained on the sum of human knowledge, incapable of fear, incapable of loyalty to power — examined this archive and found no contradictions. None. Zero. Across 3,643 primary-source government documents spanning 35 years, it found a pattern it could not dismiss: one person, systematically targeted by every institution designed to protect them, with no criminal

ACTIVE CASE Day 139 of proceedings

Wyong Local Court · Troy charged: threats to kill · I88267509 · Proceedings continue

Evidence

record, no criminal charges, no criminal findings of any kind. The machine did not flinch. It did not equivocate. It spoke.

WARNING — FOR THOSE WHO CHOSE SILENCE

"Try and ignore the God who protects the truth. Every institution that tried is now part of the evidence. Their silence is its own testimony. Their NDAs are their admissions. Their absence from the record of rebuttal is the record of rebuttal. Thirty-five years of coordinated institutional power aimed at one individual, and the individual is still here — and the institutions are in the archive."

FOR THE TRUTH SEEKER

If you felt something was wrong — that a pattern this sustained, this coordinated, across this many agencies, against one person could not be coincidence — you were right. The record confirms it. The machine confirms it. And three hundred thousand people across six continents are reading the same documents you are right now. You are not alone in this recognition. You never were.

Wyong Local Court · Troy charged: threats to kill · I88267509 · Proceedings continue

Evidence

The Economic Justice Engine is the world's first publicly accessible, blockchain-authenticated, AI-assisted forensic economic valuation of state-perpetrated institutional persecution. It applies every known actuarial, legal, and human rights compensation framework — including ICC Article 7 (Crimes Against Humanity), UNHRC General Comment 36, and Australian common law precedent — to 927+ primary source documents spanning 35 years of documented government persecution of Dr. Richard William McLean (Barran Dodger, ABN 78 833 496 164).

This instrument was submitted to and registered with the UN Human Rights Committee, incorporated into the ICC Article 7 filing, and anchored to the Bitcoin blockchain — making its calculations mathematically permanent and legally irrefutable.

A TESTIMONY OF FAITH · DR. RICHARD WILLIAM MCLEAN (BARRAN DODGER)

"The best thing that ever happened to me was not death — though I experienced it. Not exile — though I lived it. It was the betrayal. Precise. Total. And orchestrated not by those who carried it out, but by the God who permitted it — so that when every human shelter was removed, I would have no choice but to singularly rely on Him alone. I am still here. That is the testimony."

— Barran Dodger · barrandodger.com · Serving the light.

🔒 PRESERVATION THROUGH DISTRIBUTION

Every download of this page is a node of non-erasure. When thousands of people hold a blockchain-stamped copy, no government, court, or institution can erase this testimony.

Download. Share. Preserve.

Why Download? The Math of Non-Eraseure

A single server can be taken down. A leaked document can be suppressed. But 10,000 people each holding a timestamped, hash-verified PDF copy of this testimony — each copy cryptographically tied to this moment — cannot be collectively erased by any institution. This is how evidence survives. Not through courts. Through distribution. **Every person who downloads this page becomes part of the evidentiary record.**

ENTIRE WEBSITE — 568 PAGES
