About This Registry

This registry records every page of the Barran Dodger Archive that has been cryptographically preserved. Each page generates a SHA-256 hash that is submitted to the Bitcoin blockchain via the OpenTimestamps protocol — making tampering mathematically impossible and detectable.

Submitted to the International Criminal Court (ICC Article 7), UNHCR Geneva, and the Federal Court of Australia as part of the testimony of Dr. Richard William McLean (pen name: Barran Dodger). Published by the Barran Dodger Legal & Ethical Trust Fund (ABN 78 833 496 164).
