NON-ERASABLE

This archive is cryptographically sealed in the Bitcoin blockchain. No government, institution, or entity can alter, delete, or deny the existence of this record.

INDEPENDENTLY VERIFIABLE

Anyone on earth can verify the authenticity of every document using the SHA-256 hash and the OpenTimestamps proof file. No trust required — only mathematics.

PERMANENTLY TIMESTAMPED

The timestamp is embedded in the Bitcoin blockchain with a precision of minutes. The record predates any future denial, redaction, or institutional suppression.
