

THE WITNESS REMAINS - A FINAL RECORD OF ERASURE, SURVIVAL AND ACCOUNTABILITY

I am the saint who will slaughter, and the psychopath who blesses with grace. Not with a blade, but with testimony; not with blood, but with truth. For the blood they thought would disappear became a record, the ashes they thought would bury me became the soil from which I rose, and the evidence they thought would condemn me became the testimony by which I would speak.

Elon told me I needed him. He baited me with money, privilege and pride—as though a man could purchase what God had already given another. I answered: fuck that. What if he needs me? What if the man who believed he possessed the power to tempt me is himself the man standing desperately in need of forgiveness? What if the throne was never mine to seize, because it was never his to give? And what if forgiveness—not submission—is the greater power?

Anthony Albanese, in my account, became another face of the labyrinth: an endless bureaucratic loop in which responsibility could be transferred forever but accountability could never arrive. I experienced that machinery not as governance, but as gaslighting by administration—doors opening only into other doors, forms answering forms, authorities referring me back to the authorities who had already failed me. But the labyrinth had an exit. It was called endurance.

The authorities would not arrest me, even when I demanded that they do so, because I wanted my name dragged into the light and tested against the accusations made against me. I wanted a courtroom rather than a whisper network; evidence rather than insinuation; charge or acquittal; judgment rather than perpetual suspicion. Instead, the accusations I say were false became something else. They became the furnace, and the furnace did not consume me. It revealed me.

The Most High took the instrument of my humiliation and turned it into the architecture of my elevation. What was intended as a grave became an altar; what was intended as silence became testimony; what was intended as annihilation became resurrection.

I do not claim that every interpretation I have made has already been proved. I claim that the record exists, that the events documented within it demand examination, and that the unanswered questions have not ceased to exist simply because institutions have failed to answer them.

I was financially desecrated, administratively annihilated, politically scapegoated, socially isolated and displaced, and, in my account, targeted despite belonging to the very category of vulnerable people whose protection is among the stated reasons these systems exist. The shepherds became gatekeepers, the gatekeepers became walls, and the walls became the prison.

This is where the Australian myth of the fair go meets its judgment. Because what is a fair go

worth if it disappears the moment the person asking for it becomes inconvenient? What is human dignity worth when bureaucracy can reduce a human being to a case number? What is justice worth when every institution can point toward another institution until the victim disappears between the referrals? And what becomes of democracy when the machinery designed to protect the vulnerable becomes, in the eyes of the person trapped inside it, indistinguishable from the machinery destroying him?

I have described what happened to me as a state-sanctioned campaign of targeted destruction and human sacrifice. That is an allegation demanding evidence, not an established judicial finding. But the question exists, and unanswered questions do not become false merely because they are uncomfortable.

I say I died once. I say I survived what I have described as an assassination attempt involving a federal minister. I say I was driven into political exile. I say I became trapped within circumstances I experienced as coercive confinement. I have reported electronic harassment, V2K and gang-stalking. Those experiences have been real and profoundly disturbing to me; whether particular technologies, perpetrators or mechanisms can be independently established is a separate question for forensic investigation.

But there is another question that cannot be electronically dismissed, bureaucratically redirected or therapeutically buried: What happened to the man? What happened to his rights? What happened to his money? What happened to his evidence? What happened to his pleas for protection? What happened when he asked the institutions themselves to investigate what he said they had done? And why did so many doors close?

I look upon the professional world that surrounded me and see a terrible contradiction. Ethics were written. Policies were written. Human-rights instruments were written. Codes of conduct were written. Safeguarding obligations were written. Duties of care were written. Then came the human being. And somewhere between the written promise and the living person, the promise disappeared.

That is the indictment—not that every individual conspired, not that every allegation has already been proved, but that a system can possess every principle necessary to protect a human being and still leave that human being asking why nobody protected him.

They thought they were erasing a man. They were creating a witness. They thought isolation would silence him. It gave him time to document. They thought humiliation would destroy him. It gave him language. They thought bureaucracy would exhaust him. It taught him the architecture of bureaucracy. They thought the archive would disappear. They forgot that copies can survive, that timestamps survive, that documents survive, and that memory survives.

And, above all, they forgot the ancient warning: Nothing concealed remains concealed forever.

The stone can cover the tomb; it cannot command the dead to remain dead. The seal can be placed upon the record; it cannot command the truth to disappear. The powerful can close ranks; they cannot close history.

I do not ask anyone to worship my conclusions. I ask them to examine the evidence. Open the documents. Follow the dates. Read the correspondence. Trace the decisions. Identify the omissions. Compare the policies with the conduct. Separate allegation from corroboration. Separate inference from fact. And then ask the question that frightened systems have feared throughout history: What if the witness is telling the truth?

For I have learned something in the wilderness. The wilderness does not always destroy the prophet; sometimes it prepares him. The pit does not always become the end; sometimes it becomes the place from which the testimony rises. And the stone placed over the tomb can become the first evidence that someone expected the resurrection.

They could not erase what God preserved. They could not bury what the record retained. They could not silence what survived. And if there is a judgment to come, let it not be my judgment. Let the documents speak. Let the witnesses speak. Let the dates speak. Let the institutions answer for themselves. Let God judge the hearts. And let history decide what the powerful once believed would never be seen.

Because I am no longer asking permission to exist. I am standing in the ruins of everything that was supposed to erase me. And I am still here.

The man they attempted to reduce to evidence became the man who preserved the evidence. The grave became the archive. The archive became the witness. And the witness remains.

A 35-year archive of government records has now been assembled and made publicly accessible, including official correspondence, decisions and other documents in the government's own words. Whatever conclusions are ultimately drawn from that record, its existence makes the underlying questions independently examinable.

The record creates a paradox of the government's own making: it cannot credibly be answered simply by denying that the documents exist or by ignoring what they contain. Ignoring the record leaves the underlying questions unanswered. Acting upon it requires confronting the consequences of decisions recorded in its own documents. Responding to it creates a further record that can itself be examined against the evidence.

The existence of the documents is not, by itself, proof of guilt. But neither can their contents be

dismissed without examination. The record now speaks for itself. The question is no longer whether the evidence exists. The question is whether those responsible will confront it, explain it, correct it—or leave their responses to become part of the historical record.

They double down, hoping I will eventually suicide under the daily conditions of poverty, exile, hunger, gaslighting, total human betrayal and torture—while every cop, lawyer, judge and media figure is, in my view, bought off with blood money—after I had already been resurrected from a death that was whitewashed.

They don't attack the irrelevant, yet I'm treated as if I were of zero consequence. I'm not merely an individual anymore; I'm a phenomenon. Every denial strengthens my legend. They are haemorrhaging authority in a desperate attempt to avoid accountability and whitewash my relevance, but the harder they fight, the more obvious their obsession becomes. They're named, they're exposed, and they're forced to reveal their hand—it is the worst-kept secret ever kept.

Their actions confirm their panic; the world no longer doubts that they believe, trust erodes, loyalty cracks, and insiders begin wondering how much worse it is and who knows what. Fingers are pointed, they attack each other, and they are forced to confess or accuse: who knew what, and when?

The crack spreads, revealing deeper levels of obsession and amplifying my letters. Every ally revealed and every plan leaked exposes the blueprint of control, laid bare for all to see. These works are a testimony to their failure.

The files are not about me; they are about their own weakness. Exposure crowned me by dismantling their illusions, humiliating the most powerful institutions and revealing the fatal crack in the empire. And all I did was exist peacefully, authentically and live without apology.

The mask is gone. They built the monument to my ascension themselves, and every attempt to erase me becomes another humiliation. Every non-response documents the recipient's cowardice; every ignored email is the bureaucracy bleeding out.

I am the reality that cannot be denied. I stand untouchable, undeniable and unforgettable—and the whole world has read it.

I survived. The record remains. And so do I.

The witness is Barran Dodger.
