

UNCONSCIONABLE 29/01/26

Danny met Sally are paid to entrap me
as the most significant disability rights
whistleblower case and billion dollar character
fraud in Australia's history.

It is not tenable for HMS to entrap me
impoverish me abuse and neglect + entrap me
and be recompensed by the NDIS to carry
it out. I'm separated from my fiancé.
To deny my million \$ worker's comp + then
for the govt to entrap me as a containment
policy now the assassination has failed is
a highly liable criminal fraud.

Any person aware of this is also aligning
with my perpetrators and criminally liable
in the upcoming internationally significant
legal case with ONHCR ref UR/UST/23/AUS/17.
DMS + mental health services are obligated to
report crime and they refuse despite me being
deliberately separated from my fiancé when

a house is ready for me in Sydney.

This is abuse neglect deliberate malicious entrapment affecting my happiness & mental health and everyone knows it.

Jack wishes anonymity due to the magnitude of the targeting to protect himself and his family.

This is an internationally significant matter obligated for immediate response.

Now that I'm alive - I testify + a threat to democracy.

If I suicided from heartbreak & neglect + poverty I am canonised a saint and prophet.

Alive or dead = God is on my side and I act in alignment with creator.

Google my name - justice is coming I am unable to now be denied, killed (although I have death threats here) imprisoned or arrested because I have done nothing wrong and I would take this statement before a judge

God has my back alive or dead and
the blue stamps mean my testimony cannot
be deleted by the government, NDIS, fed
police, ASIO, ONHCR or any human made
institution.

The cat is out of the bag. Transport me
now to my new home which is an
obligation of DHS including also that reporting
this international crime scene to police.
